Cumulative Index, 1997

AUTHOR INDEX
Volume 2, Issues 1–4

Barnard, Martha U. *(See Williams, P.D.)*
Berube, Melinda
Gastroesophageal reflux, 43–46
Boland, Elizabeth A. *(See Davidson, M.)*
Carlson, Doris
Standards to prevent complications of urinary catheterization in children: Should and should-knots, 37–41
Caty, Suzanne
Use of a projective technique to assess young children's appraisal and coping responses to a venipuncture, 83–92
Conrad, Barbara
Issues in pediatric research: Safeguarding the children, 163–171
Davidson, Maryanne
Teaching teens to cope: Coping skills training for adolescents with insulin-dependent diabetes mellitus, 65–72
Ellerton, Mary Lou *(See Caty, S.)*
Grey, Margaret *(See Davidson, M.)*
Gudlin, Doreen J.
Conscious sedation, 143–147
Guerriere, Denise
Mothering children who survive brain injuries: Playing the hand you're dealt, 105–115
Hanson, Sandra *(See Williams, P.D.)*
Horner, Sharon *(See Conrad, B.)*
Hudson, Diane C.
Pain management in the hospitalized infant, 93–96
Karlin, Robyn *(See Williams, P.D.)*
Kelleher, Ruth E.
Daytime and nighttime wetting in children: A review of management, 73–82
Kendell, Mary J. *(See Younger, J.B.)*
Krowchuk, Heidi *(See Moore, M.L.)*
Liebergen, Adrienne *(See Williams, P.D.)*
Kochevar, Wendy *(See Gudlin, D.J.)*
Lobar, Sandra L.
Legal issues in nonrelated infant adoption: Nursing implications, 116–124
Mackowiak, Linda *(See Page, N.E.)*
Madigan, Elizabeth A.
An introduction to pediatric home health care, 172–178
McCain, Gail C. *(See Prows, C.A.)*
McKeever, Suzanne *(See Guerriere, D.)*
Mohr, Lynn
Staff-developed posters—An avenue to enhance nurses' self-worth, 47–48
Moore, Mary Lou
Parent line: Nurse telephone intervention for parents and caregivers of children from birth through 5, 179–184
Mowery, Bernice D. *(See Carlson, D.)*
Olson, Joyce *(See Williams, P.D.)*
Page, Nancy E.
The clinical nurse specialist and nurse practitioner: Complementary roles, 188–190
Phillips, Suzanne *(See Lobar, S.L.)*
Pickler, Rita H. *(See Younger, J.B.)*
Prows, Cynthia A.
Parental consent for bone marrow transplantation in the case of genetic disorders, 9–18
Raines, Deborah A.
Values influencing nursing practice: Responses from the neonatal nurses, 55–62
Rew, Lynn
Health-related help seeking behaviors in female Mexican-American adolescents, 156–162
Ridder, Lavonne *(See Williams, P.D.)*
Ritchie, Judith A. *(See Caty, S.)*
Robinson, Cordelia
Early intervention services, 191–192
Simunek, Linda A. *(See Lobar, S.L.)*
Sullivan, Joan M.
Learning the baby: A maternal thinking and problem-solving approach, 21–28
Tobin-Rommelhart, Susan *(See Williams, P.D.)*
Williams, Phoebe D.
Outcomes of a nursing intervention for siblings of chronically ill children: A pilot study, 127–137
Winch, Anne E. *(See Gudlin, D.J.)*
In pursuit of further formal education, 138–142
Youngblut, JoAnne M.
PC—Politically correct or pathologically cautious? 3
Stereotypes, 51
Why an RN? 103–104
Choosing to follow, 155
Younger, Janet B.
Mastery of stress in mothers of preterm infants, 29–35

SUBJECT INDEX
Volume 2, Issues 1–4

Adolescents
Teaching teens to cope: Coping skills training for adolescents with insulin-dependent diabetes mellitus— *(Davidson, Boland, & Grey)*, 65–72
Adult Learning Theory
Staff-developed posters—An avenue to enhance nurses' self-worth *(Mohr)*, 47–48
Appraisal
Use of a projective technique to assess young children's appraisal and coping responses to a venipuncture *(Caty, Ellerton, & Ritchie)*, 83–92
Baby Caregiving
Learning the baby: A maternal thinking and problem-solving approach *(Sullivan)*, 21–28
Baby's Signals
Learning the baby: A maternal thinking and problem-solving approach *(Sullivan)*, 21–28
Benner's Levels of Practice
Staff-developed posters—An avenue to enhance nurses' self-worth *(Mohr)*, 47–48
Biologic and Social Risk Factors
Early intervention services *(Robinson)*, 191–192
Bone Marrow Transplantation
Parental consent for bone marrow transplantation in the case of genetic disorders *(Prows & McCain)*, 9–18
Child Development
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
Parent line: Nurse telephone intervention for parents and caregivers of children from birth through 5 *(Moore & Krowchuk)*, 179–184
Child Health
Parent line: Nurse telephone intervention for parents and caregivers of children from birth through 5 *(Moore & Krowchuk)*, 179–184
Children
Daytime and nighttime wetting in children: A review of management *(Kelleher)*, 73–82
Use of a projective technique to assess young children's appraisal and coping responses to a venipuncture *(Caty, Ellerton, & Ritchie)*, 83–92
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
Children With Disabilities
Early intervention services *(Robinson)*, 191–192
Chronic Illness
Outcomes of a nursing intervention for siblings of chronically ill children: A pilot study *Williams, Hanson, Karlin, Ridder, Liebergen, Olson, Barnard, & Tobin-Rommelhart*, 127–137
Clinical Nurse Specialist
The clinical nurse specialist and nurse practitioner— Complementary roles *(Page & Mackowiak)*, 188–190
Competition and Role Blurring
The clinical nurse specialist and nurse practitioner— Complementary roles *(Page & Mackowiak)*, 188–190
Coping
Use of a projective technique to assess young children's appraisal and coping responses to a venipuncture *(Caty, Ellerton, & Ritchie)*, 83–92
Coping Skills Training
Teaching teens to cope: Coping skills training for adolescents with insulin-dependent diabetes mellitus— *(Davidson, Boland, & Grey)*, 65–72
Decision-Making
Parental consent for bone marrow transplantation in the case of genetic disorders *(Prows & McCain)*, 9–18
Diabetes Mellitus
Teaching teens to cope: Coping skills training for adolescents with insulin-dependent diabetes mellitus— *(Davidson, Boland, & Grey)*, 65–72
Distorted Picture
Stereotypes (Editorial) *(Youngblut)*, 51
Dysfunctional Voiding
Daytime and nighttime wetting in children: A review of management *(Kelleher)*, 73–82
Enuresis
Daytime and nighttime wetting in children: A review of management *(Kelleher)*, 73–82
Ethics
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
Federal Guidelines
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
Feeding
Gastroesophageal reflux *(Berube)*, 43–46

Firsthand Knowledge
Stereotypes (Editorial) *(Youngblut)*, 51
Gastroesophageal Reflux
Gastroesophageal reflux *(Berube)*, 43–46
Genetic Disorders
Parental consent for bone marrow transplantation in the case of genetic disorders *(Prows & McCain)*, 9–18
Guidelines for Conscious Sedation
Conscious sedation *(Gudlin, Winch, & Kochevar)*, 143–147
Help-Seeking Behavior
Health-related help seeking behaviors in female Mexican-American adolescents *(Rew)*, 156–162
Hispanic Female Adolescents
Health-related help seeking behaviors in female Mexican-American adolescents *(Rew)*, 156–162
Home Health Care
An introduction to pediatric home health care *(Madigan)*, 172–178
Hospitalized Children
Pain management in the hospitalized infant *(Hudson)*, 93–96
Infant Adoption
Legal issues in nonrelated infant adoption: Nursing implications *(Lobar, Phillips, & Simunek)*, 116–124
Information Sources
In pursuit of further formal education *(Winch)*, 138–142
Informed Consent
Parental consent for bone marrow transplantation in the case of genetic disorders *(Prows & McCain)*, 9–18
Intervention
Use of a projective technique to assess young children's appraisal and coping responses to a venipuncture *(Caty, Ellerton, & Ritchie)*, 83–92
Outcomes of a nursing intervention for siblings of chronically ill children: A pilot study *Williams, Hanson, Karlin, Ridder, Liebergen, Olson, Barnard, & Tobin-Rommelhart*, 127–137
Joint Efforts
The clinical nurse specialist and nurse practitioner — Complementary roles *(Page & Mackowiak)*, 188–190
Knotting
Standards to prevent complications of urinary catheterization in children: Should and should-knots *(Carlson & Mowery)*, 37–41
Leader-Follower Relationship
Choosing to follow (Editorial) *(Youngblut)*, 155
Leader's Accomplishments
Choosing to follow (Editorial) *(Youngblut)*, 155
Leadership Qualities
Choosing to follow (Editorial) *(Youngblut)*, 155
Legal Issues
Legal issues in nonrelated infant adoption: Nursing implications *(Lobar, Phillips, & Simunek)*, 116–124
Levels of Sedation
Conscious sedation *(Gudlin, Winch, & Kochevar)*, 143–147
Maternal Problem-Solving
Learning the baby: A maternal thinking and problem-solving approach *(Sullivan)*, 21–28
Maturational Process
Gastroesophageal reflux *(Berube)*, 43–46
Mother-Child Relationship
Mothering children who survive brain injuries: Playing the hand you're dealt *(Guerriere & McKeever)*, 105–115
Mothers
Mothering children who survive brain injuries: Playing the hand you're dealt *(Guerriere & McKeever)*, 105–115
Neonatal Nurses
Values influencing nursing practice: Responses from the neonatal nurses *(Raines)*, 55–62
Nurse Practitioner
The clinical nurse specialist and nurse practitioner — Complementary roles *(Page & Mackowiak)*, 188–190
Nurse Telephone Intervention
Parent line: Nurse telephone intervention for parents and caregivers of children from birth through 5 *(Moore & Krowchuk)*, 179–184
Pain Assessment Tool
Pain management in the hospitalized infant *(Hudson)*, 93–96
Pain Management
Pain management in the hospitalized infant *(Hudson)*, 93–96

Parental Perceptions
Parental consent for bone marrow transplantation in the case of genetic disorders *(Prows & McCain)*, 9–18
Pediatric Brain Injuries
Mothering children who survive brain injuries: Playing the hand you're dealt *(Guerriere & McKeever)*, 105–115
Pediatric Populations
An introduction to pediatric home health care *(Madigan)*, 172–178
Personal Experiences
Stereotypes (Editorial) *(Youngblut)*, 51
Person-Based Qualities
In pursuit of further formal education *(Winch)*, 138–142
Pharmacology and Airway management
Conscious sedation *(Gudlin, Winch, & Kochevar)*, 143–147
Postpartum Stress
Mastery of stress in mothers of preterm infants *(Younger, Kendell, & Pickler)*, 29–35
Preterm Infant Birth
Mastery of stress in mothers of preterm infants *(Younger, Kendell, & Pickler)*, 29–35
Primary Care Nurse Roles
Early intervention services *(Robinson)*, 191–192
Primary Nocturnal Enuresis
Daytime and nighttime wetting in children: A review of management *(Kelleher)*, 73–82
Priority of the Baby
Learning the baby: A maternal thinking and problem-solving approach *(Sullivan)*, 21–28
Professional Growth and Development
In pursuit of further formal education *(Winch)*, 138–142
Professional Nursing Judgment
Why an RN (Editorial)? *(Youngblut)* 103–104
Projective Techniques
Use of a projective technique to assess young children's appraisal and coping responses to a venipuncture *(Caty, Ellerton, & Ritchie)*, 83–92
Research
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
Research Evidence
Why an RN (Editorial)? *(Youngblut)* 103–104
Risk-Benefit
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
Safeguards
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
School Suspension
PC—Politically correct or pathologically cautious (Editorial)? *(Youngblut)*, 3
Sexual Harassment
PC—Politically correct or pathologically cautious (Editorial)? *(Youngblut)*, 3
Siblings
Outcomes of a nursing intervention for siblings of chronically ill children: A pilot study *Williams, Hanson, Karlin, Ridder, Liebergen, Olson, Barnard, & Tobin-Rommelhart*, 127–137
Staff-Developed Posters
Staff-developed posters—An avenue to enhance nurses' self-worth *(Mohr)*, 47–48
Standardized Procedures
Why an RN (Editorial)? *(Youngblut)* 103–104
Test Phobia
In pursuit of further formal education *(Winch)*, 138–142
Unique Skills
The clinical nurse specialist and nurse practitioner—Complementary roles *(Page & Mackowiak)*, 188–190
Urethral Trauma
Standards to prevent complications of urinary catheterization in children: Should and should-knots *(Carlson & Mowery)*, 37–41
Urinary Catheters
Standards to prevent complications of urinary catheterization in children: Should and should-knots *(Carlson & Mowery)*, 37–41
Values
Values influencing nursing practice: Responses from the neonatal nurses *(Raines)*, 55–62
Venipuncture
Use of a projective technique to assess young children's appraisal and coping responses to a venipuncture *(Caty, Ellerton, & Ritchie)*, 83–92
Vulnerability
Issues in pediatric research: Safeguarding the children *(Conrad & Horner)*, 163–171
